Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

Notice of Sale of Real Estate Belonging to the County of San Mateo, State of California.

NOTICE IS HEREBY GIVEN THAT THE County of San Mateo, acting by and through its Board of Supervisors, and by order of said Board, does hereby offer for sale the real estate and property known as the County Farm and Hospital, being the property of said county, containing 139.70 acres of land, and all present improvements, consisting of one two-story dormitory, one one-story dormitory farm, dairy and other buildings.

Said property is situated on the shore of what is known as the Crystal Springs Lake, adjoining the property of the Spring Valley Water Company. The entire property is comparatively level, well wooded and watered, and is distant about four miles from the city of San Mateo, easily accessible from said city by a turnpiked county road, and accessible also to the village of Belmont by another turnpiked road. Said property is suitable for farming or grazing, and would, if subdivided, make beautiful suburban home sites.

Said county is desirous of selling said premises in order that a location along the line of the Southern Pacific Railroad Company may be secured for its Farm and Hospital.

Sealed proposals or bids are hereby invited for the purchase of said property, which said proposals and bids will be received up to the hour of 10 o'clock a. m. of MONDAY, the 21st day of October, 1907. All bids or proposals must be addressed to Jos. H. Nash, County Clerk of the County of San Mateo, Redwood City, California, and said proposals and bids must contain an offer for said property as a whole. Said property will be sold for cash, and a reasonable time will be allowed purchaser to search title.

The Board reserves the right to reject any and all bids.

By order of the Board of Supervisors of the County of San Mateo, State of California.

Town Council

At the meeting of the Town Council Monday evening, an order was passed to extend the lighting service 2000 feet on Roosevelt avenue, and install two arc lights for the benefit of the residents of that district. The superintendent of the United Gas & Electric Company presented an estimate of the cost of the work amounting to about $500 and the board thought that the extension justified by the expense that property owners in that portion of the town were going to in street procedure.

For the purpose of straightening Walnut street, deeds were exchanged between Antone Genochio and the town by which Genochio transfers to the town a piece of land on the east side of Walnut street and the town renumerated him by presenting him with a similar piece on the opposite side. Mr. Genochio is the owner of the adjoining property on both sides of Walnut street, so that besides straightening the thoroughfare it also made more symmetrical his own holdings. Trustee Walker presented the resolution legalizing the procedur.

As it is necessary to install a meter between the pumping station ahd the street water system of the town an order was issued for the advertising for bids for about 500 feet of pipe needed to connect with the water company's feed pipe at Chestnut and Stambaugh streets and extend thence to the tanks. By this means it is expected that a means of regulating the purchase and sale of water shall be acquired.

The United Gas & Electric Company were granted permission to lay a gas main on Washington and Jefferson streets from A street to county road, work to be done under supervision of street superintendent, the street to be put in condition satisfactory to him.

Walker presented a resolution regulating the height of telegraph and other power poles within the town limits which was adopted.

Poles for carrying electricity must be 35 feet in height and wires at least 28 feet above the ground, while telephone poles must be 30 feet in height. The wires of each system must be a sufficient distance from those of the other as to render them secure from coming in contact.

The term of Robert Brown as trustee of the public library having expired, he was reappointed.

Street Superintendent Dickey informed the board that Mr. Phelps, representing the Southern Pacific Co., had visited the town recently and inspected the repairs which the railroad company had been requested to make. He said he would report to the company and recommend the construction of culverts and the removal of the Lover's Lane bridge, which latter will be replaced by a gravel walk.

The consideration of plans and specifications for the improvement of Chestnut street was postponed until the next meeting on account of the indecision of the railroad company as to whether or not it can use Chestnut street. The sharpness of the turn makes it impossible to construct a proper curve from the railroad track without purchasing some of the adjacent property.

A. Hess was directed to fill in the sidewalks around the waterworks with dirt at a cost of fifty cents a load.

The following reports were received from town officials:

Clerk Stafford reported having issued 67 miscellaneous licenses, $131; beer license, $20; liquor licenses $840; special liquor licenses $18.

Marshal Christ has collected for water, $558.40; liquor licenses, $840; miscellaneous licenses, $147; beer licenses, $10; special liquor licenses, $18; water connections, $10; total $1613.40.

Treasurer Town reported cash in the various funds as follows: General fund, $2,388.02; library fund, $656.16; Street Improvement fund No. 8, $16,621.35.

THE ZOO CATERER.

Special Knowledge Required to Run a Wild Animals' Hotel.

"To run a wild animals' hotel—for what is a zoo but that?—requires a lot of special knowledge," said an animal keeper. "How would you, for instance, know how to provide for a rhinoceros or a tapir? If you don't cater right for your animal guests, if you don't give them what they want, they pack up and quit the hotel, you know—that is to say, they die. It amounts to the same thing.

"Yes, it takes special knowledge to feed a zoo. You wouldn't know, would you, that an elephant requires 150 pounds daily—no more, no less—of rice, hay, straw, roots, bread and biscuit?

"A hippo wants more. Give him roots, hay and grass, 200 pounds of them, and he won't register a single kick.

"A giraffe with its dainty appetite, asks only for fifty pounds a day of chaff, salad, grain and clover.

"But don't offer vegetables to lions and tigers. Eight pounds apiece of raw horseflesh, with plenty of bone and gristle, is their ration, year in and year out.

"We have our farms, too, to supply our table, just as lots of other hotels do. Only our farms are queer ones. One is a mouse farm. In it, with the help of traps, we raise a tremendous annual crop. Another is a worm farm, where we produce yellow meal worms by the thousand for our birds."—Exchange.

Marie Antoinette's Books.

The unhappy Queen Marie Antoinette possessed an important library of 4,712 volumes, consisting of plays and romances, little books a la mode, the works of Pascal, Bossuet, Fenelon, Bourdaloue, Massillon, Bolleau, Cousseau, Corneille, Moliere, Voltaire and many others. She loved music passionately and had a large collection of operas in eighty-nine numbers. The bindings were by Blaizot and were uniform in red morocco, with the arms of France and Austria stamped upon them. The execution of the work was poor and the decadence in the art of binding evident. The glories of the art of Padeloup and the Deromes had passed away, and the revolution effectually killed whatever knowledge remained of the ancient skill of the bookbinders. Half a century later saw its revival in France, and the art has since flourished both there and on English soil.—London Spectator.

How Beetles Defend Themselves.

Beetles have other defenses than their cuirass, such as nauseous or caustic liquids, which they expel on provocation, and, strange to say, certain beetles actually exude their blood, charged with noxious products. The practice is confined to the chrysomelidae, some of the timarchae and adamonia, the coccinelidae and the meloidae. The blood of the coccinelidae has a strong, disagreeable odor like that of the whole insect. That of the timarchae is odorless, but has an astringent flavor, and in the case of the Timarchae primelliodes is venomous. The blood of the meloidae contains much cantharidine.

A Problem In Golf.

Two young ladies were making their first essay at golf. "Dear me," said the first young lady, "what shall I do now? My ball is in a hole." The second young lady took out a book of instructions. "Let me see," she said, turning the pages. "I presume you must now take a stick of the right shape and get it out." "Oh, yes, of course," said the first young woman. "See if you can find me a stick shaped like a dustpan and brush."

PARADISE FARM SOLD

Peninsula Railroad Secures Its Right-of-Way

The Heitzberg Ranch has changed hands. This forty-one acre homestead occupies a strategic position, almost surrounded by wide roads. On the Southwest is the main foothill road, the Alameda de las Pulgas, and there is a frontage of over 1900 feet on the much traveled road running out of Redwood City to Woodside, La Honda, Pescadero Beach, etc.

The sale was negotiated by A. W. Bell of Palo Alto and San Francisco. The grantor was Mrs. Mary Strehl and the purchaser Homer S. Bodley.

The agent in making the deal stipulated that a strip eighty feet wide should be sold to the Peninsula railroad, which is to run from Redwood City along the foothills through University Heights and the Stanford campus, to connect with the road to Los Gatos. The right of way has nearly all been secured. This location is half way between Redwood and Stanford, and will be a stopping place for fast trains, and is certain to become an important center if not a town site. The ranch will be subdivided.

A Destructive Fire.

An alarm of fire, rung in from fire house No. 1, brought out the department Tuesday night. The scene of the conflagration was the building on the corner of Main and Stambaugh streets, owned by R. C. Holmquist and occupied by C. M. Uhlenberg's grocery. The fire caught in some unknown way in the rear of Mr. Uhlenberg's store and when discovered at 9 o'clock, had made such headway that for a time it seemed impossible to save any of the structure. The chemical engine was quickly brought into play and for a time did good service. After a short while, however, it ran dry, but by that time the hose companies had begun to get in good work, and although there was a woeful lack of water and difficulty in getting the hydrants to work, the firemen succeeded in getting the flames partially under control. Very fortunately the corrguated sides of Mr. Holmquist's hardware department withstood the heat and flames, and the interior wood did not catch. For a time it was thought that the adjoining building might catch but the lack of wind kept this from happening. Much of Uhlenberg's supplies were carried out, and although a great deal was destroyed by fire and water, he had enough to move across to the Hynding building, where he will soon be serving his customers. Early on Wednesday the insurance adjusters came down from the city and gave Mr. Uhlenberg his insurmoney. Geo. W. Lovie, with his usual promptness, reported payment for loss in full by the Commercial Union Insurance Co. on the Homlquist building. The fire occured Tuesday evening and payment made Friday morning.

Captain Harry Hallett

Captain Harry Hallett, a former well known resident of Woodside, passed away near Kings City Wednesday. He is the father of Harry and Joseph Hallett. The body will arrive here this morning and interment will be in Union cemetery.

A Curiosity About Eclipses.

The average number of total and partial eclipses in any one year is four, the maximum seven and the minimum two. There is nothing really peculiar in this except the fact that where only two occur they are always both of the sun. There are more solar than lunar eclipses, but the sun being so much larger than the earth or moon the shadow terminates in a point and is visible only along a narrow track, while the lunar obscuration is frequently visible over half a continent.

He said that the transbay people were taking a great interest in the matter and that the opportunity is now presented to save a long trip around by way of Alviso, when one desires to get to any of the cities on opposite sides of the bay. DOINGS AT WOODSIDE

The C. F. A. Talbots Will Spend Winter in New York

Thursday a baby boy was born to Mr. and Mrs. Joseph Hallett.

The C. F. A. Talbots have returned to New York after spending the summer at their country home here.

The rain during the week was very beneficial. The dust was laid in good shape. Not enough fell to start the grass.

Mr. Carter, who has been employed as foreman on the Hooper place, has resigned to accept a similar position at Healdsburg.

Supervisor MacBain has a number of men and teams engaged in hauling gravel and putting the Portola road in shape for the winter.

Julius Lowe, who has been engaged in boring for water for the residents on Albion avenue has struck an abundant supply, which means much toward the development of that section.

The school children of Greersburg district are enjoying the annual fall vacation of two weeks. Miss McEvoy attended the teachers' institute at Redwood City the fore part of the week.

A dance will be given to-night in Independence hall by the young men of Menlo Park. George Shine will be floor manager; and that means a whole lot, as his ability in that line is well known. Good music, a good supper and a good time is assured all.

TEACHERS MEET IN THIS CITY

Noted Educators Make Addresses

THREE DAYS PROFITABLY SPENT

Professor Jordan Delivered His Famous Lecture, The Call of the Twentieth Century

The annual Teachers' Institute was called to order in this city in the Sequoia Union High School last Monday by County Superintendent Roy W. Cloud, a day earlier in the week than ever before. The change in the day of convening was agreeable to nearly all the teachers as it gives them two free days at the end of the week todownat best delights them. Superintendent Cloud said that he had prepared quite a speech of welcome, but owing to the fact that the hour of coming to order was later than he expected, he would have to reserve his remarks for some future occasion when there would be more time at his disposal. It was unnecessary for him to speak his welcome as his appearance proclaimed it. Miss Edwards of San Mateo was secretary and hera ssistant was Miss Lane of Ravenswood. Upon roll-call it was found that ninety teachers were present, including twelve high-school teachers. As a whole the teachers presented an excellent appearance, being decidely well dressed and intelligent looking. The ladies so greatly outnumbered the men that a curcory glance would lead one to believe that there were no men among them at all but there were eight or nine. Many new faces were observed, more than at any other institute.

The first on the program was "America" by the Institute and it was followed by the announcement that the Institute would be divided into two sections, the primary and grammar grades, and that the former woul be addressed by Miss English of the San Jose Normal on writing and the latter by Prof. T. L. Heaton of Berkeley on the getting of thought and composition. After a short recess the speakers changed places and continued the same subjects.

The gist of the speakers' ideas was to the effect that writing should be taught in the good old-fashioned way with letters slanting and free hand movement and that no attempt should be made to have compositions written until thought had been evolved in the minds of the writers and that the young writers might discover their errors in their compositions by reading them aloud to themselves, an idea that was received with alarm by the teachers.

Just before the noon recess Superintendent Cloud announced that if there were any teachers who had not found accommodations, he would assist them all he could, if they would let him know.

In the afternoon Prof. Heaton spoke on how to spend our leisure moments and the great necessity of teachers teaching their pupils how they should spend theirs now and in their future.

On Monday evening Prof David Starr Jordan, president of Stanford University delivered his famous lecture the "Call of the Twentieth Century" and to say it was listened to with spell-bound attention is but doing justice to the speaker. He made it plain to everybody that the opportunities of the future were greater than ever they had been in the past. He made all the young men with ambition glad that their opportunity was yet to come. The most enticing picture he painted was the young electricians harnessing the waters of the mountains from Alaska to Patagonia like John Thompson, formerly of this city, is now doing in Mexico. As the writer listened he wished that he was of the rising generation, the future is so full of opportunity. It is probable that every one present thought the same.

On Tuesday the time was pleasantly and profitably spent in listening to high class discourses on the objects and aims of education by Prof. Cubberley of Stanford who filled the teachers' minds with high ideals and made them glad that teaching was their occupation. Prof. D. R. Augsburg in his pleasing way gave much instruction on the subject of drawing showing by numerous examples how easily it might be taught. The teachers were so interested in his directions that many of them are thinking of having him come here again to give them further instruction.

On Tuesday evening Prof. Treat of Stanford lectured on the "Sepoy Mutiny of India.".

On Wednesday Prof. Duniway of Stanford lectured on history and civics, and the Hague Tribunal, and Prof. Cubberley completed his discourses on Education.

Then came the close of the Institute. The three days had been so pleasantly spent that the teachers were loath to adjourn and go their respective ways. It may be said in conclusion that Superintendent Roy W. Cloud's first Institute was a great success from every point of view.

St. Peter's Episcopal Church Fair

The ladies of St. Peter's Episcopal Church are still busy making preparations for the bazaar and dance which they will hold on the afternoon and evening of November 8th. There are many surprises in store for the little ones. The afternoon will be devoted exclusively to the disposition of ready-made children's clothing, fancy work, home cooking and numerous other things, and the evening hours will be consumed in dancing to which all are cordially invited. Ladies will be admitted free. Gentlemen will be asked to contribute fifty cents apiece to help along the worthy cause for which the dance is given. Don't forget the date! November 8th.

BANKS ARE EXAMINED

Institutions of This County in Flourishing Condition

Within the past fourteen months there has been an increase of $44,000 in resources and $42,000 in deposits.

The Law Is Not Being Violated

We have interviewed Sheriff Chatham and District Attorney Bullock in reference to the slot machines and both officials have made investigations all along the line and find all the machines are being played by checks for merchandise. This is legal and the officers can not close them up. A recent decision of the Appallate court makes it legal to run slot machines where checks are played for merchandise. Both offciails are doing all they can to enforce the law but can do nothing when the saloon men comply with the law. It might be stated in this connection that in over seventy-five per cent of the Counties of the state slot machines are being played with checks.

Richard Rumbol Breaks Thigh; Wife Dies From Shock

A very sad occurence took place last Saturday evening in this city. It being necessary for the nurse who was attending his wife to leave the house for another case, Mr. Richard Rumbol accompanied the lady to the door. On his return to his chair he slipped and fell breaking his thigh bone near the hip. The unfortunate man then crawled to the door and after some time summoned assistance and was helped to his bed. The shock of hearing her husband in pain and the sorrow in not being able to help him caused Mrs. Rumbol to take a turn for the worse. A nurse was quickly secured by Doctors Ross and Barret and although everything was done for the sufferer Mrs. Rumbol passed away at five o'clock the next morning. Mr. Rumbol has born up under the terrible ordeal bravely however and is getting along as nicely as could be expected under the circumstances.

The funeral of the good woman tool place Tuesday morning from Mount Carmel Church the remains being interred in Holy Cross Cemetery, Menlo Park. Mrs. Rumbol was a native of New York and was aged about 66 years. She was married to Mr. Rumbol 35 years ago and they have made their home here and at Belmont all of that time. Beside the husband, one dauaghter, Mrs. Lillie Schmirer of San Jose is left to mourn her loss.

Guardians Appointed

Judge Buck on Tuesday appointed Frank Furtado guardian of the presons and estates of Manuel, Louis and Antone Furtado. Their estates consist of an interest in the estate of their father, Anibal Joseph Furtado,, which is now in process of administration in the superior court. The property is valued at $3000, one thousand each. The guardians bond was fixed in the sum of $2000.

Judge Buck also appointed James Johnston guardian of the person and estate of John James JJohnston aged seven years. The estate consists of a claim for damages against the Southern Pacific Railroad Company for injuries received through carelessness of the company. The boy was playing in the back yard of his father's home at San Mateo when a torpedo was thrown in the yard by one of thetrain men. The missle exploded inflicting serious injuries on the boy' head and eyes. The guardianship letters are asked for in order for the boy to prosecute said claim against the Company .The suit will be filed shortly. Ross and Ross are the attorneys for the guardian. The guardian's bond was fixed in the sum of $100.

Matthew McCollough is here from Santa Cruz on a visit to his mother.

Senator Felton is backing a big electric company that will operate in Mendocino, Sonoma and Marin counties and will supply current to the country south as far as San Francisco. The concern will be known as the Mountain Electric Power Company and the central station will be located at Snow mountain, 150 miles from San Rafael. Construction work is now in progress.

Barnes was blamed for the accident and he was accused of manslaughter. Yesterday Barnes was brought before Justice of the Peace McSweeney for examination on the charge. George L. Davis, for many years a resident of Salinis valley, died in Pacific Grove Friday from cancer of the stomach. HARDY FERNS.

About Forty Species Are Suited to Outdoor Culture.

Among the hardy ferns are varieties greatly differing in size and form, from a hairlike creeping stem bearing a few simple mosslike leaves to the vigorous growing plants with large leaves, attaining a height of two or three feet. Ferns are interesting and extremely beautiful, especially when grown as specimen plants or in combination with other plants. The varying conditions in which the different species succeed are remarkable. Many of them require a warm temperature, while others do well in cool and shady places.

Of the 4,000 or more species of ferns not more than about forty species are suited to outdoor culture in ordinary soils and situations. These species can be planted in beds, borders or rockeries or in the foreground of shrubbery. As most of them require a somewhat shady place, they are especially useful for filling in places where grass and other light loving plants cannot grow. Perfect drainage is required. The soil should have leaf mold in it, or decayed peat or well decayed sod will answer.

Hardy ferns are best planted in the spring, but they can be planted in the summer if the fronds or leaves are cut back, making it easier for the plants to establish themselves before the winter sets in. From his florist the amateur gardener can obtain cuttings of varieties most suitable for the soil and climate in his vicinity. In the winter the ferns should be given protection, with a covering of leaves, hay or straw.—Washington Star.

Respected His Scruples.

In the mathematics class one day at Williams college Professor S., who was rarely made the subject of college jests, was excessively annoyed by some man "squeaking" a small rubber bladder. The noise seemed to come from near a certain Jack Hollis, and after querying each of his neighbors and receiving a negative answer Professor S. said sternly:

"Hollis, do you know who is making that unbearable noise?"

Hollis, who had been the guilty person all along, assumed an air of stoical bravery and said calmly, "I know, sir, but I prefer not to tell."

Professor S.'s angry face grew calmer, and with evident pleasure he replied: "I respect your scruples, Hollis. They do you credit and should shame the guilty man, sir."

Danger In Linoleum Making.

In the manufacture of linoleum no unprotected lights are allowed in the mixing department. This is on account of the great danger of exploding the cork dust floating in the air. An additional danger in linoleum making is that the mixture of cement and cork dust has the unpleasant property of spontaneously igniting if left in a warm place. It is therefore customary to mix the material a sackful at a time in order to reduce the risks of an explosion.

To Keep from Growing Old

Here's the HORTON Galvanized Rotary Washer, which takes the washday droop out of your shoulders and the careworn lines of toil from around your eyes. You do not bend your back at all with this washer—which means you will keep your youth ten years longer. You do not grind violently on a crank or jerk at a handle. The flywheel of the HORTON Washer is balanced to swing VERY easily in a continuous direction. YOU DO NOT TURN FAST, you do not turn long, for the HORTON is high geared, so that an easy motion of the wheel produces an extremely high speed within the washer.

You need not be strong to handle the machine or carry it up cellar stairs. It is very light in weight, considering its strong construction, because the tub is of galvanized metal instead of wood—cannot dry out, leak or come apart, and keeps itself sweet and clean.

You will have to see this modern washer to appreciate what a blessing it is and how CLEAN it washes the clothes. The first time you are near a hardware store, ask them to show you the

Galvanized Steel Rotary Washer

and then you will realize what a *modern* washing machine can do. In justice to yourself, don't purchase any washer until you have compared it with the *Horton*. If you do this you won't want the other machine.
